Child Protection in Education 2017

Clarify the latest safeguarding risks, remain legally compliant and ensure robust child protection procedures across your school

- **1 in 3 children have been a victim of cyberbullying**
- **1 in 20 children in the UK have been sexually abused**
- **A third of sexual abuse is committed by other children and young people.** (www.nspcc.org.uk)

These statistics represent just a snapshot of the risks and dangers facing children in your school.

They also demonstrate the difficulties you face each day safeguarding students and protecting them from harm.

With so many safeguarding responsibilities, constantly updated legal obligations and limited external support, it is imperative that you remain up-to-date, and all staff gain the support and guidance needed to keep your pupils safe.

Key focuses on the day include:

- **Mental health:** Embed a whole-school mental health and wellbeing programme and support students with anxiety, stress and depression
- **Online safety:** Guidance on sexting, parental support, and how to use a robust filtering and monitoring system to spot trends and improve safeguarding procedures
- **Peer-on-peer abuse:** Clarify what peer-on-peer abuse entails and gain strategies to support both the victim and the perpetrators
- **Staff training:** How to provide engaging whole-school training to meet your obligation for 'regular safeguarding updates as required'
- **Ofsted:** Gain an Ofsted checklist for safeguarding compliance, map your existing safeguarding practice and develop a safeguarding culture

The only safeguarding event where you can access one-to-one support from leading education lawyers and gain clarity and practical guidance on your legal obligations to support and protect students from the latest safeguarding threats.
