Effective Data Use for Pupil Progress

Engage and equip staff to use and analyse data consistently and successfully to drive pupil progress

"The systems for collecting data on pupils' progress mean that all schools are now data-rich, but in the schools judged satisfactory this is not always used efficiently to intervene and support pupils who are falling behind"

The Annual Report of Her Majesty's Chief Inspector of Education and Children's Services, Nov 2011

Every year, schools collect increasing amounts of pupil data. Ensuring schools make best use of this information is key to identifying and tackling underachievement and driving pupil progress.

Do you know how to develop the skills and confidence in your staff to ensure they take ownership of their data and make accurate judgements that lead to effective interventions?

Optimus Education's Effective Data Use for Pupil Progress conference is your opportunity to gain practical advice and expert guidance to develop a strategic, whole-school approach to data. Hear practical tips for training your staff, interpreting data accurately and ensuring consistency in practice.

We are delighted to welcome Peter Kent, Headteacher, Lawrence Sherriff School who will discuss how to lead a whole school approach to data and ensure consistency in data use with all staff.

In light of the new Teachers' Standards, Ofsted will be looking for evidence that all teachers are engaging effectively with their data. At this year's event, hear how to use data to demonstrate effective pupil progress to Ofsted.

Plus, learn how to:

- **Make reliable and accurate judgements on your data** to identify underperformance and inform appropriate interventions
- **Present your pupil data in a user-friendly format** to ensure it is accessible to all staff
- Discover **innovative intervention techniques** to be sure your data impacts on attainment
- **Optimise your use of RAISEonline** by making best use of the interactive reports

This practical event will provide you with the key skills to develop best practice around understanding, utilising and presenting data

As a delegate, you will be given access to download speakers' presentations after the conference to lead training in your school.

Please take a moment to look through the programme on the opposite page and complete and return the final page to register. We look forward to welcoming you in January.

Benefits of attending:

- Discover how to avoid the pitfalls of data management to raise staff motivation and promote accuracy of data use
- Maintain a consistently up-to-date picture of your pupils' progress by implementing effective monitoring and tracking systems
- Take away practical tips for presenting your pupil data to Ofsted in your self evaluation
- Gain advice for setting challenging targets, making appropriate estimates and predictions and communicating them effectively to pupils

Comments from previous Optimus Education delegates:

"Interesting and useful. Some thought provoking ideas and discussions"

Deputy Head, Bridgemary School

"Really great! I learnt so much!"

Assistant Headteacher, Stanborough School

"Excellent food for thought – many practical ideas to try out!"

Assistant Head, St Edmunds Catholic School

"I picked up some very useful info and I am excited about trying some new things out with my own data!"

Data Manager, Chorlton High School

"A useful and rewarding experience"

Assistant Head, Blenheim High School

Who should attend:

- Headteachers & Principals
- Deputy Headteachers & Principals
- Assistant Headteachers & Principals
- Data Managers

Programme

09:00 – 09:45	Registration and refreshments		
09:45 – 10:00	Chair's introduction and round-up of the current data landscape
