and advice

Mental health problems affect about 1 in 10 children and young people (MQ Mental Health, 2018).

Pressures on local services and lack of resources available for school staff to help students, is leading to increased strain on DSLs.

This conflates with new and emerging safeguarding challenges and risks schools being less prepared to protect their students from potential dangers outlined in the KCSIE.

This conference provides a practical agenda to help DSLs ensure that their school or trust are able to safeguard students and staff effectively, while delivering high-quality education.

Why should I attend this event?

- **Mental health:** ensure a whole-school mental health audit.
- **DSL wellbeing:** maintain a healthy work-life balance.
- **County lines:** understand risks to vulnerable students.
- **SEND:** include SEND students in your safeguarding agenda.
- **Gender identity:** create an open and safe space.
