# What is Management Accounting?

## What is management Accounting?

The process of preparing **management** reports and accounts that provide accurate and timely financial and statistical information required by **managers** to make day-to-day, short-term and medium-term decisions.

#### Financial Accounts vs Management Accounts

|                  | Management Accounts  | Financial Accounts  |
|------------------|--|---|
| Purpose          | To help managers to make decisions to fulfil school goals  | Communicate the school's financial position to interested stakeholders                                      |
| Focus & Emphasis | Future orientated  | Past orientated   |
| Rules            | Can be prepared in a format that the internal users find helpful to support monitoring and decision making | Have to be prepared in the format required by external parties e.g. Companies House, Local Authorities, DfE |

## Why is management accounting important?

Trustees and senior management have to;

- Ensure they are financially sustainable and do not go into deficit.
- Ensure the funds they are given are deployed for maximum impact and effect.
- Ensure the operations of the trust are efficient.
- Ensure value for money is achieved.

Preparing monthly management accounts is now a statutory requirement.

#### What does the academies financial handbook say?

#### Section 2.3.3

The trust **must** prepare management accounts every month setting out its financial performance and position, comprising budget variance reports and cash flow forecasts with sufficient information to manage cash, debtor and creditors. Managers **must** take appropriate action to ensure ongoing viability.

Management accounts **must** be shared with the chair of trustees every month, irrespective of the size of the trust, and with the other trustees six times per year. The board **must** consider these when it meets. The board **must** ensure appropriate action is being taken to maintain financial viability including addressing variances between the budget and actual income and expenditure.

#### What does the academies financial handbook say?

#### Section 2.3.3

The format of the management accounts should be adjusted to be suitable for different users including summaries and supporting narrative as appropriate.

The trust must select key financial performance indicators and measure its performance against them regularly, including analysis in its annual trustees report as explained in the accounts direction.

# ESFA response to whether staff were expected to work August to produce July accounts

Dear Mrs Berkeley,

Thank you for your email.

The production of monthly management accounts is confirmed as a 'must' in the Academies Financial Handbook.

Compliance with the handbook is a requirement in trusts' funding agreements with the Secretary of State.

I hope this resolves your query
Kind regards
Helen Taverner
Academies Customer Interactions Unit

# Monthly Accounting Processes

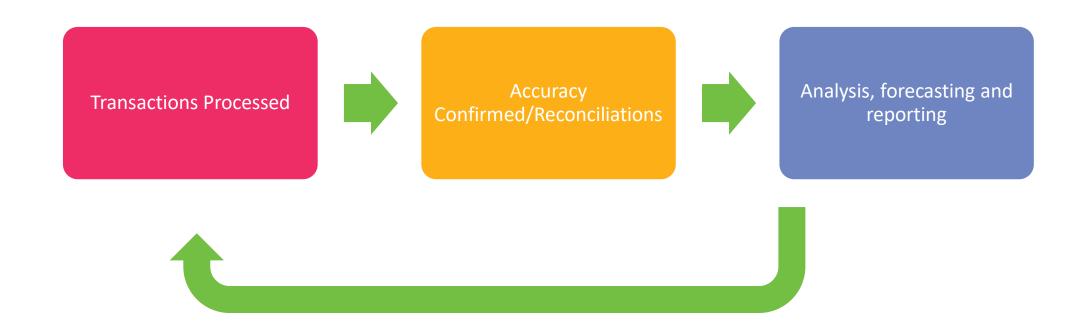

#### Monthly Accounting Processes

The accounting system should be kept up to date and transactions recorded accurately.

 Is your accounting system up to date and accurate? How do you know?

 How are you coordinating the monthly close down procedure across the trust?

#### **Monthly Accounting Processes**

## Monthly Accounting Tasks

Month End Accounting Workbook v1.6 (2018-19)

**Cover Sheet** 4. Sundry Debtors 3. Prepayments **5. Sundry Creditors** 6. Deferred Income 7. VAT Reconciliation 8. Payroll Reconciliation 9. Bank Reconciliation 10. Funding 11. Aged Creditors 12. Aged Debtors 13. Journal Review 14. Intercompany

## Rules of Double Entry Book Keeping

- ✓ To record an expense you debit the expense account
- ✓ To reduce an expense you credit the expense account
- ✓ To record income you credit the income account
- ✓ To reduce income you debit the income account
- ✓ To increase an asset, you must debit that account
- ✓ To decrease an asset, you must credit that account
- ✓ To increase a liability you credit that account
- ✓ To decrease a liability you debit that account

| Account Type | Debit    | Credits  |
|--------------|----------|----------|
| Assets       | Increase | Decrease |
| Liabilities  | Decrease | Increase |
| Income       | Decrease | Increase |
| Expenses     | Increase | Decrease |

### Accruals Accounting

Definition

An accounting method that measures the performance and position of an organisation by recognising economic events regardless of when cash transactions occur.

# Accruals Accounting - Definitions

|   | Definition  | Example   | Journal Entries                                  |
|---|---|---|--|
| Accrual                                   | Accounting for goods or services which have been received but have not yet been paid for    | Delivery of books<br>received by 31 <sup>st</sup><br>August, invoice<br>not received until<br>September | Db – Expenditure<br>Code<br>Cr Accruals          |
| Prepayment                                | Accounting for goods or services paid in advance of all of the service/goods being received | Subscriptions<br>paid for a whole<br>year upfront   | Cr- Expenditure<br>Code<br>Db Prepayments        |
| Receipt in<br>Advance/<br>Deferred Income | Accounting for money received in advance of the service or goods being supplied             | Trip income received in August for a trip taking place in December                                      | Db – trips income<br>Cr – receipts in<br>advance |

# Financial Reporting

#### What should a set of management accounts include?

- Income and expenditure report year to date and forecast to the end of the year compared to budget
- Variances to budget year to date and full year
- Commentary to include why variances to budget have occurred
- Key Financial Performance Indicators with targets
- Balance Sheet
- Rolling 12-month cash flow
- Trading accounts for areas such a catering, breakfast club etc.
- List of virements

Important: There is no single report that can be printed from an accounting system that will tell you the financial position of the organisation

#### Which Accounting System?

- A robust procurement process for a new accounting system is critical
- The chart of accounts must be designed to facilitate internal and external reporting

#### Forecasting

- Once you have confirmed your accounting data is correct, this process is the most important.
- Go through every ledger code/cost centre and consider what income and expenditure is still likely to materialise by 31<sup>st</sup> August
- Ensure you keep clear and concise notes and document all the assumptions you have made
- Note the key areas of risk, where the forecast has the potential to significantly deviate from the latest prediction

#### Elements of a balance sheet

| Category              | Description  | Example  |
|-----------------------|--|--|
| Fixed Assets          | Assets that an organisation uses on a long-term continuing basis | Buildings, computers, vehicles, furniture          |
| Current Assets        | Assets you expect to sell or turn into cash within one year      | Bank, debtors, VAT recoverable, stock, prepayments |
| Current Liabilities   | Liabilities you expect to pay within the next year               | Creditors, payroll control, accruals,              |
| Long Term Liabilities | Liabilities you expect to pay but not in the next year           | A bank loan, pension deficit                       |

#### Cash Flow Forecast

- Preparing a rolling 12-month cash flow forecast is best practice
- No system can automatically prepare a cash flow forecast for you.
- Does not need to be very detailed (unless you know you have cash flow issues). Expenditure can just be split into payroll and purchases.
- For larger schools, with individual budget holders, it can be useful them to set a profiled budget for their areas of responsibility.

#### Commentary

What could a commentary include?

- Summary of overall financial position
- Reasons for significant variances to budget
- Reasons for movement for forecast from the previous month
- Areas of risk
- Internal audit update
- Education updates
- Actions for trustees/local governing bodies to take

#### Financial Reporting - Reflection

 How does your current financial reporting meet the requirements of the Academies Financial Handbook?

How could your financial reporting be improved?

What actions are going to take to ensure the improvement happens?

Will some things need to change to enable the improvements to happen?
