*“Revised framework to focus inspection on what children learn through the curriculum, rather than over-reliance on performance data.”*

OFSTED, JANUARY 2019

The new draft inspection framework which is set to be used from September 2019 places a greater emphasis on the school's curriculum.

Instead of taking exam results and test data at face value, Ofsted will now look at how results are achieved and if they are the result of broad and rich learning.

This event will provide you with clarity on what a broad and balanced curriculum may look like and gain strategies to help build and develop a strong programme of learning for your school.

**Curriculum:** develop an educational programme that reflects the values of your school.

**Knowledge versus skills-based:** understand the benefits of both approaches.
