## DATA PROTECTION - ON THE FRONT LINE

<https://www.flickr.com/photos/westmidlandspolice>

April 16, 1957

Janice Wrotkowski, School Chief  
Holy Cross School  
1630 - 4th Street N. E.  
Minneapolis, Minnesota

Dear Janice:

Thank you for the very nice letter of April 10, 1957.

There is nothing that makes a Fire Prevention Chief happier than to get a letter like you have written to me.

I want to assure you that without your help, and the help of Holy Cross School, our Junior Fire Prevention Program would not be nearly the success that it is.

I must congratulate you and your school for the splendid way you have accepted the responsibility of learning about Fire Prevention through the able guidance of Inspector Roy Johnson.

It is most gratifying to attend your wonderful program each year and witness the progress you have made. Thank you for doing such a good job for Inspector Johnson, Chief Reynold Malmquist, The Minneapolis Fire Department and me.

Good luck.

A mailroom muddle has resulted in a major data protection breach at a Teesside school.

The personal details of up to 100 students at Hillsview Academy, [Teesville](#), have ended up in the wrong hands.

# A DIFFERENT VIEW ON DATA PROTECTION?

“The text of the GDPR mentions the word “risk” 75 times. The word “penalties” is only mentioned 22 times. Data protection risk is not about fines, it’s about managing impact - to individuals, to society, to the organisation”

Rowenna Fielding (Protecture Ltd)
